

Our Philosophy

At Jumbos OOSH, our mission is to create a warm and safe space for children and their families.

We've listened to feedback from our dedicated team, families and children to refresh our philosophy. This guiding statement nurtures our daily work, allowing us to provide a diverse, unique and caring outside school hours service. *Monique & Jules, OOSH Directors*

Our Service

At Jumbos OOSH, we offer “guilt-free” outside school hours care for busy families. While you focus on your responsibilities, we cultivate a fun and engaging environment that excites your children to join us. We celebrate Australia’s multicultural society, respecting our cultural differences and fostering inclusiveness.

Strong hygiene practices are embedded in our routines. We encourage children’s independence through open-ended questions and flexible schedules, while also providing quiet spaces for self-regulation. Additionally, we promote sustainable practices to instil a sense of environmental stewardship in our children, guided by the principles of the approved learning framework, My Time, Our Place.

Our Children

We are committed to providing a safe space where children can enjoy fun moments with their friends and engage in meaningful learning experiences. Just as a garden flourishes with the right care, children need encouragement and guidance to achieve their goals. They deserve to be protected, heard and celebrated for their uniqueness in a safe environment that fosters learning and play.

In line with Maslow’s hierarchy of needs, we recognise that meeting each child’s basic needs - such as safety, belonging and self-esteem - is vital for their growth. By nurturing an inclusive environment, we help children reach their full potential, enhancing their social connections and emotional wellbeing.

Our Families

From the first hello to the final day of care, Jumbos OOSH is a family-oriented community. We take a holistic approach to support both children and their families, ensuring that our service is not just an experience for children but a meaningful journey for the entire family.

Our Educators

We care for your children as if they are our own. Our diverse and respectful team views their roles as valuable opportunities to help children grow. They warmly welcome new families and provide support to help everyone feel at home. Our management team fosters an atmosphere of mutual respect and strong friendships among staff, believing that happy educators create a positive impact on children and families.

Our Community

We believe that community is essential to our service. Our environment encourages children to build connections with friends, educators and families while honouring the rich cultural heritage of the Birpai people.

Our team supports these connections and provides opportunities for children to explore the local community through incursions and excursions, learning about Birpai traditions and history. We collaborate with families to enhance our programming and celebrate the diverse stories that shape our shared environment.
